Lines of Business

Insurance intermediaries are classified into six categories according to their lines of business:

- Travel insurance agency (for those who pass only the TIA Paper, or otherwise exempted, and are (i) travel agents licensed under the Travel Agents Ordinance or (ii) staff members of those travel agents)
- General insurance agency/broking (for those who pass only the P&P plus GI Papers, or otherwise exempted)

Note :

- The activities of insurance agents should still be confined to the authorised classes of insurance business of their Principal(s) notwithstanding that the agents may be eligible to be engaged in all lines of business including linked long term.
- An insurance broker company or agency (i.e. a non-individual broker or agent) is allowed to carry on the particular line(s) of business provided that its chief executive/responsible officer has passed the particular examination papers, unless otherwise exempted. Hence, a chief executive/responsible officer has to pass P&P, GI, LT and IL Papers for his/her company to be a composite (including linked long term) insurance broker/agency.
- The technical representatives' activities cannot exceed the eligible line(s) of business of the insurance agents or insurance brokers for which they represent.
- Travel insurance agents are only allowed to sell travel insurance tied to a tour, travel package, trip or other travel services which they are arranging for their clients. They are not allowed to sell annual travel insurance policies or stand-alone travel insurance policies (i.e. travel insurance policies for trips which the particular travel insurance agents are not arranging).

Registration of the Chief Executives/Responsible Officers and Technical Representatives

- All chief executives/responsible officers and technical representatives must be registered before they are allowed to conduct business.
